Swimmers of all abilities welcome!

Tadpole- Get used to being in the water! Haven't spent much time in the water with your child? They are probably a tadpole!

Minnow- Gain strength while learning the mechanics of strokes! Is your child happy to be in the water and strong/old enough to listen to instruction? If the answer is yes, they are a minnow!

Guppy- Learn to swim a few strokes on your own! If your child is very comfortable in the water and are willing to attempt independent strokes! Guppy is the place for them!

Trout- Learn backstroke and freestyle technique! If your kid is comfortable swimming short distances of freestyle and back floating on their own, Trout is the right level!

Salmon- Learn Breaststroke and Improve Technique! If your child is comfortable swimming freestyle and backstroke, Salmon is the right place for them!

Shark- If your child is a capable swimmer and wants to learn how to swim butterfly, dive, and improve on their technique, they are a Shark!

PRIVATE LESSONS ALSO AVAILABLE contact privatelessons@blueridgeseatle.com to learn more about scheduling privates
